

Nimbus Cloud Storage — Product Overview

Pricing Tiers Nimbus Cloud Storage offers three pricing tiers. The Starter tier costs 5 dollars per month and includes 50 gigabytes of storage. The Pro tier costs 15 dollars per month and includes 500 gigabytes of storage, along with priority email support. The Enterprise tier is custom-priced and includes unlimited storage, a dedicated account manager, and a guaranteed 99.99 percent uptime SLA.

Refund Policy Customers on the Starter and Pro tiers may request a full refund within 14 days of their initial purchase, provided they have used less than 10 percent of their storage allocation. Enterprise customers are governed by their individual contract terms and are not eligible for the standard 14-day refund window.

Data Retention Policy Deleted files are moved to a recovery bin and retained for 30 days before permanent deletion. Account data for cancelled subscriptions is retained for 90 days to allow for reactivation, after which it is permanently purged from all systems, including backups.

Support Hours Starter tier customers receive email support with a 48-hour response time during business days. Pro tier customers receive priority email support with a 12-hour response time. Enterprise customers receive 24/7 phone and email support with a 1-hour response time for critical issues.

Security All data is encrypted at rest using AES-256 encryption and in transit using TLS 1.3. Nimbus Cloud Storage is SOC 2 Type II certified and undergoes an independent security audit every 12 months.
